International Journal Science and Technology (IJST)

Volume 4 No 2: July 2025

FOCUS AND SCOPE OF THE JOURNAL DEVELOPMENT OF SCIENCE AND TECHNOLOGY

IJST: International Journal Science and Technology (p-ISSN : 2828-7045 (print), e-ISSN : 2828-7045 (online); <https://journal.admi.or.id/index.php/IJST> is a journal that publishes scientific articles in the development of science and technology both from the fields of computers, informatics, and mechanics, focusing on computer science, appropriate technology, and design and renewable technology.

Articles published in the International Journal of Science and Technology include the results of original scientific research (top priority), new scientific review articles (not priority), or comments or criticisms of writings in the IJST journal. The IJST journal accepts manuscripts or articles in the field of IJST/engineering from various academics and researchers, both nationally and internationally.

The articles published in the IJST journal are articles that have been reviewed by peer-reviewers. Starting in 2022, the IJST journal only accepts articles originating from original research results (top priority), and scientific review articles that are new (not priority). The decision to accept or not a scientific article in this journal is the right of the Editorial Board based on the recommendation of reviewer Partners.

JOURNAL INDEX INFORMATION

IJST: International Journal Science and Technology (p-ISSN : 2828-7045 (print), e-ISSN : 2828-7045 (online); <https://journal.admi.or.id/index.php/IJST> is a peer-reviewed journal that has been indexed in several reputable indexers, including: Google Scholar; Digital Reference Guard (GARUDA), Directory of Open Access Journal (DOAJ).

PREFACE

IJST: International Journal Science and Technology (p-ISSN: 2828-7045 (print), e-ISSN: 2828-7045 (online); Volume 1 No. 1 Year 2022 (March 2022) is the first edition to be published in 2022. Articles published by the IJST Journal have been published in Full text and Open Access in format online at: <https://journal.admi.or.id/index.php/IJST> Starting in 2022, only articles originating from research results can be published in the IJST journal after being reviewed by reviewer partners.

IJST: International Journal Science and Technology published the only paper that strictly followed the IJST guidelines and templates for manuscript preparation. All submitted manuscripts will go through a double-blind peer-review process. The paper is read by editorial members (according to the field of specialization) and will be screened by the Managing Editor to meet the criteria required for IJST publication. Manuscripts will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their area of specialization. IJST has reviewed the form to keep the same item reviewed by two reviewers. Then the editorial board makes a decision on the reviewer's comments or suggestions.

Reviewers give an assessment of originality, clarity of presentation, and contribution to the field/science. This journal publishes research articles, review articles/literature reviews, case reports and concept or policy articles, in all fields of Computer Science, Informatics Engineering, Multimedia, Art. Articles to be published are original works and have never been published. Articles submitted will be reviewed by a team of reviewers who come from internal and external to the Indonesian Young Lecturer Foundation. IJST is published periodically every 4 months, namely in March, July and November.

The Editorial Board will strive to continuously improve the quality of the journal so that it can become an important reference in the development of engineering sciences. The highest appreciation and gratitude go to reviewer partners along with the members of the Editorial Board and all parties involved in the publication of this journal.

The Editorial Board also expects scientific articles from readers to be published in Volume 2 Number 3 November 2023 after going through a review process by the Editorial Board and/or reviewer Partners. Starting from Volume 1 Number 3 November 2022, the IJST journal appears with a new environmental style and a new article format leading to a better one. Complete writing instructions for 2022 are displayed on this journal's portal.

Regards,

Chief of Board

TABLE OF CONTENTS

Focus, Scope and Indexation Information of Journals	i
Editor Team	ii
Preface	iii
Table of Contents	iv

TABLE OF CONTENTS

Dynamics of Organic Open Space : Transformation Functions and Activities on the Nunbaun Sabu Coast , Kupang City

Jeni Messakh, Yohanes A. Luwu
1-16

Development of a Dual-Leaf Automatic Door Prototype Based on Arduino using HC-SR04 Ultrasonic Sensor and Servo Motor

Syaeful Ilman, Tri Nur Arifin, erfiana Wahyuningsih
17-25

Usability Analysis of the Sahabatku Application using the System Usability Scale

Tissa Maharani
26-40

Testing Process of Density and Porosity of Aluminium 7075 and Aluminium 6061

Ariyanto Ariyanto, Ahmad Risa Harfit, Ahcmad Fauzan, Tati Noviati, Bagus Rianto
41-55

Analysis of Land Use Patterns in the Kampung Minang Tourism Village, Nagari Sumpur, Based on Geographic Information Systems (GIS)

Tengku Abdillah Azis, Delon A.L Sitompul, Maria Joito Gultom, Cindy Melissa Wijaya, Wiji Syahfitri, Tumiar Sidaauruk
56-66

Analysis Large Language Model (LLM) for Digital Transformation in a Ministry

Andre Pratama Adiwijaya
67-75

Brain Tumor Detection using Deep Learning

Ms. K Sudha, T. Latha Maheswari, Harish M, Shaik Chandini, Jishnu MS
76-89

Design and Development of a Negative Pressure Wound Therapy Device

Citra Ananda Adri Hanifa, Mohammad Rofi'i, Patrisius Kusi Olla
90-100

A Systematic Review of Geothermal-Solar Hybrid Systems: Design, Performance, Operational Advantages, and Configuration Principles

Richard Wempie Vicky Uguy, Estrela Bellia Muaja
101-113

Design Thinking: A Practical Method for Designing Stress Management Application Interfaces Using a Biomicroscopy Approach

Ernianti Hasibuan, Karin Rehulina, Evans Winanda Wirga
114-128

Integrated System Development to Support the Implementation of Tri Dharma of Higher Education by Lecturers at the Indonesia Civil Pilot Academy of Banyuwangi

Hasyim As ari, Miko Andi Wardana, Putra Wicaksono, Fajar Islam
129-141

Design of Backend API Payment Gateway System Implementation to Minimize Fraud and Facilitate Payment Transactions at Hattrick Online Game Cafe

Wisnu Sukma Maulana
142-151

Comparison of Machine Learning and Deep Learning in Shopee Review Sentiment Analysis

Kuwat Setiyanto, Azzahra Dania Indriyani
152-167

Smart Presentation Control Using Hand Gesture Recognition

Lilis Setyowati, Hans Naufal Granito
168-176

Tiktok Social Media Analysis of Content for Your Page with AHP (Analytical Hierarchy Process) Method

Nuning Khanif Aulia
177-182

AI-Driven Digital Twin for Energy Optimization in Green Data Centers

Isni Oktria
183-191

The Effect of Light Intensity on Electrical Energy Produced by Polycrystalline Solar Panels

Falaqi, Tri Nur Arifin
192-202

Design of Electrical Power Transfer Automation System Between PLN, PLTS and Genset Using Relay

Sunarto, Tri Nur Arifin

203-213
