International Journal Science and Technology (IJST)

FOCUS AND SCOPE OF THE JOURNAL

DEVELOPMENT OF SCIENCE AND TECHNOLOGY

IJST: International Journal Science and Technology (p-ISSN : 2828-7045 (print), e-ISSN : 2828-7045 (online) ; <https://journal.admi.or.id/index.php/IJST> is a journal that publishes scientific articles in the development of science and technology both from the fields of computers, informatics, and mechanics, focusing on computer science, appropriate technology, and design and renewable technology.

Articles published in the International Journal of Science and Technology include the results of original scientific research (top priority), new scientific review articles (not priority), or comments or criticisms of writings in the IJST journal. The IJST journal accepts manuscripts or articles in the field of IJST/engineering from various academics and researchers, both nationally and internationally.

The articles published in the IJST journal are articles that have been reviewed by peer-reviewers. Starting in 2022, the IJST journal only accepts articles originating from original research results (top priority), and scientific review articles that are new (not priority). The decision to accept or not a scientific article in this journal is the right of the Editorial Board based on the recommendation of reviewer Partners.

JOURNAL INDEX INFORMATION

IJST: International Journal Science and Technology (p-ISSN : 2828-7045 (print), e-ISSN : 2828-7045 (online); <https://journal.admi.or.id/index.php/IJST> is a peer-reviewed journal that has been indexed in several reputable indexers, including: Sinta, Google Scholar; Digital Reference Guard (GARUDA), Index Copernicus.

PREFACE

IJST: International Journal Science and Technology (p-ISSN: 2828-7045 (print), e-ISSN: 2828-7045 (online); Volume 1 No. 1 Year 2022 (March 2022) is the first edition to be published in 2022. Articles published by the IJST Journal have been published in Full text and Open Access in PDF format online at: <https://journal.admi.or.id/index.php/IJST> Starting in 2022, only articles originating from research results can be published in the IJST journal after being reviewed by reviewer partners.

IJST: International Journal Science and Technology published the only paper that strictly followed the IJST guidelines and templates for manuscript preparation. All submitted manuscripts will go through a double-blind peer-review process. The paper is read by editorial members (according to the field of specialization) and will be screened by the Managing Editor to meet the criteria required for IJST publication. Manuscripts will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their area of specialization. IJST has reviewed the form to keep the same item reviewed by two reviewers. Then the editorial board makes a decision on the reviewer's comments or suggestions.

Reviewers give an assessment of originality, clarity of presentation, and contribution to the field/science. This journal publishes research articles, review articles/literature reviews, case reports and concept or policy articles, in all fields of Computer Science, Informatics Engineering, Multimedia, Art. Articles to be published are original works and have never been published. Articles submitted will be reviewed by a team of reviewers who come from internal and external to the Indonesian Young Lecturer Foundation. IJST is published periodically every 4 months, namely in March, July and November.

The Editorial Board will strive to continuously improve the quality of the journal so that it can become an important reference in the development of engineering sciences. The highest appreciation and gratitude go to reviewer partners along with the members of the Editorial Board and all parties involved in the publication of this journal.

The Editorial Board also expects scientific articles from readers to be published in Volume 4 Number 3 November 2025 after going through a review process by the Editorial Board and/or reviewer Partners. Starting from Volume 4 Number 3 November 2025, the IJST journal appears with a new environmental style and a new article format leading to a better one. Complete writing instructions for 2025 are displayed on this journal's portal.

Regards,

Chief of Board

TABLE OF CONTENTS

Focus, Scope and Indexation Information of Journals	i
Editor Team	ii
Preface	iii
Table of Contents	iv

TABLE OF CONTENTS

[Comparative Analysis of the RAB for the Kampi Sunter Hotel Development Project Structural Work Package between AHSP 2024 and AHSP 2025](#)

Afif Budi Santoso, Dian Nusantara University, Indonesia

Ervina Yuliyanti, Dian Nusantara University, Indonesia

01-12

[Effects of Fuel Injector Seat Angle on Power, Torque, and Exhaust Emissions of a Single-Cylinder Four-Stroke Engine](#)

Eko Surjadi, Surakarta University, Indonesia

Wijoyo Wijoyo, Surakarta University, Indonesia

Diana Rizky Septiawan, Politeknik Negeri Malang, Indonesia

13-26

[Computational Analysis of Bioethanol Production from Arenga Pinnata Sap using Rice Husk Biomass Heating: Statistical Modeling of Fermentation Time Effects on Alcohol Yield](#)

Tineke Saroinsong, Politeknik Negeri Manado, Indonesia

Alfred Noufie Mekel, Politeknik Negeri Manado, Indonesia

<https://orcid.org/0000-0001-8266-5345>

Firmansyah Reskal Motulo, Politeknik Negeri Manado, Indonesia

<https://orcid.org/0009-0007-9270-1275>

27-41

[Earned Value Analysis on the Tayan Bulking Station Project in East Kalimantan](#)

Yohanes Godman Ora Etlatius Woda Sidi, 17 Agustus University, Indonesia

Masca Triana, 17 August University, Indonesia

42-58

Analysis of Material Inventory Control Management for Structural Works using Economic Order Quantity, Reorder Point, and Safety Stock Methods in a 2.5-Storey Boarding House Construction Project

Wyldan Candra Kurniawan, 17 August 1945 University, Indonesia

Masca Indra Triana, 17 August 1945 University, Indonesia

59-74

Internal Force Analysis on Simple Truss Structure: Evaluation of the Cramer's Rule Method

Rif'atul Khusniah, State Polytechnic of Malang, Indonesia

Kharisma Nur Cahyani, State Polytechnic of Malang, Indonesia

Yehezkiel Septian Yoganata, State Polytechnic of Malang, Indonesia

75-88

Study of WF Profile Analysis as a Compression Element Reviewed Based on the Weight to Strength Ratio Using the LRFD Method

Kharisma Nur Cahyani, State Polytechnic of Malang, Indonesia

Yehezkiel Septian Yoganata, State Polytechnic of Malang, Indonesia

Rif'atul Khusniah, State Polytechnic of Malang, Indonesia

Kartika Purwitasari, State Polytechnic of Malang, Indonesia

89-103

Intelligent Robotic Arm Control System with Adaptive Learning Algorithm Based on Motion Pattern Recognition

Excellsdeo Ndahawali, Politeknik Negeri Manado, Indonesia

Jonah Mekel, Politeknik Negeri Manado, Indonesia

Jaqlin Tamaka, Politeknik Negeri Manado, Indonesia

GheridsDipipi GheridsDipipi, Politeknik Negeri Manado, Indonesia

Rick Resa Wahani, Politeknik Negeri Manado, Indonesia

Michael Edward G. Kimbal, Politeknik Negeri Manado, Indonesia

Deko Trio Desembara, Politeknik Negeri Manado, Indonesia

Firmansyah Reskal Motulo, Politeknik Negeri Manado, Indonesia

104-117

The Effect of Temperature Variations on Sheet Press Machines on the Hardness and Toughness of PP (Polypropylene) and HDPE (High Density Polyethylene) Materials

Winda Sanni Slat, Manado State Polytechnic, Indonesia

Steven Johny Runtuwene, Manado State Polytechnic, Indonesia

Djefry Hosang, Manado State Polytechnic, Indonesia

Agnes Wakkary, Manado State Polytechnic, Indonesia

Yenni Sigalingging, Manado State Polytechnic, Indonesia

118-131

Computer Vision-Based Automated Waste Sorting System for Plastic and Organic Waste Classification Using Color and Shape Features

Rick Resa Wahani, Politeknik Negeri Manado, Indonesia

Michael Edward G. Kimbal, Politeknik Negeri Manado, Indonesia

Deko Trio Desembara, Politeknik Negeri Manado, Indonesia

Leonardo Frando Pasla, Politeknik Negeri Manado, Indonesia

Firmansyah Reskal Motulo, Politeknik Negeri Manado, Indonesia

132-143

Predicting Defensive Formation Effectiveness in Football Using Random Forest and LSTM Models

Nurdiyanto Yusuf, Universitas Gunadarma, Indonesia

144-156

Artificial Intelligence-Based Load Classification and Imbalance Detection Using Vibration Signals in Drum-Type Washing Machines

Michael J. Carter, University of Nottingham, United Kingdom

Emily R. Dawson, University of Nottingham, United Kingdom

Liam P. O'Connor, University College Dublin, Ireland

157-169
